

Acknowledgements

The Commission would like to place on record its gratitude to all those who shared their thoughts and ideas with us - researchers, academicians, professionals, private providers, representatives of the health industry and officials, particularly those working at the cutting edge. Their views and experiences helped us understand the complexity of the issues being faced in the health sector. We have tried our best to reflect in this report their frustrations, hopes and aspirations. Such persons are far too many to name individually. Our special thanks to the WHO which provided the stimulation, technical support and above all funds. We also thank the UNICEF, UNFPA and the Columbia University for their technical and financial support. The Commission would like to make a special mention of the help and unstinted support extended to us by Shri C. S. Rao, Chairman of the Insurance Regulatory Development Authority, Dr. N. Vijayaditya, Director General, National Informatics Center, National Sample Survey Organization, Registrar General of India, Central Statistical Organization, and also thank all the contributors, reviewers and researchers. Their inputs were invaluable and helped form the basis of the Report.
