

CONTENTS

ICD 10 Chapter No.	Module No.	Subject	Page No.
-	1	Introduction To ICD-10 Structure and Principles of Classification What is clinical coding? What is a statistical classification? Why use a classification? History of the International Classification of Diseases Overview of the ICD-10 classification Volumes of the ICD-10 Chapters of the ICD-10 Structure of the ICD-10 code	1
-	2	Volume 1 - Tabular List Important points regarding the Tabular List Chapters using more than one letter: Blocks Three character categories or rubrics Four character categories or rubrics Conventions Inclusion Terms Exclusion Terms Glossary descriptions Dagger and Asterisk convention Parentheses () Square brackets [] Colon : Brace } Not Otherwise Specified (NOS) Not elsewhere classified (NEC) "A1nd" in code titles Point dash	6
-	3	Volume 3 - Alphabetic Index Important points regarding the Alphabetic Index Structure of Index entries Conventions Parentheses () Not Elsewhere Classified (NEC) Cross-references	13
-	4	Procedure Coding Using ICHI Important points for Coding with the ICHI Conventions used in the Tabular List of Procedures 1st level - anatomical site axis 2nd level - procedural type axis Block number Abbreviations Punctuation Instructional terms Conventions used in the Alphabetic List of Procedures Blocks	18

		Sequence Modifiers Not Elsewhere Classified (NEC) Omit Block Cross References Eponyms	
-	5	BASIC CODING GUIDELINES	23
-	6	Overview of Morbidity Coding Sources of morbidity data Uses of morbidity data Central concepts for morbidity coding Why single-condition coding? Rules for reselection of main condition Guidelines for coding of the main condition and other Optional additional codes	25
-	7	Overview of Mortality Coding Important points for mortality coding chapter International Form of Medical Certificate of Concept of underlying cause of death: Selecting the underlying cause of death General Principle: Rule 1 Rule 2 Rule 3 Rules for modification: Rule A. Senility and other ill-defined conditions Rule B. Trivial conditions Rule C. Linkage Rule D. Specificity Rule E. Early and late stages of disease Rule F. Sequelae Using the Medical Mortality Data System (MMDS) Assumption of intervening cause Highly improbable Duration Sequelae Rheumatic fever with heart involvement Nature of injury Malignancy:	36
I	8	Certain Infectious and Parasitic Diseases Important points for Chapter I Coding exercises for Chapter I Sample Hospital Discharge Summaries for Chapter I Mortality Coding Exercises for Chapter I	55
II	9	Neoplasms Important points for Chapter II Coding exercises for Chapter II Sample Hospital Discharge Summaries for Chapter II Mortality Coding Exercises for Chapter II	63
III	10	Diseases of the Blood and Blood-Forming Organs and Certain Disorders Involving The Immune Mechanism Important points for Chapter III	72

		Coding exercises for Chapter III Sample Hospital Discharge Summaries for Chapter III Mortality Coding Exercise for Chapter III	
IV	11	Endocrine, Nutritional and Metabolic Disorders Important points for Chapter IV Coding exercises for Chapter IV Sample Hospital Discharge Summaries for Chapter IV Mortality Coding Exercises for Chapter IV	80
V	12	Mental and Behavioural Disorders Important points for Chapter V Coding exercises for Chapter V Sample Hospital Discharge Summaries for Chapter V Mortality Coding Exercises for Chapter V	88
VI	13	Diseases of the Nervous System Important points for Chapter VI Coding exercises for Chapter VI Sample Hospital Discharge Summaries for Chapter VI Mortality Coding Exercises for Chapter V	96
VII	14	Diseases of the Eye and Adnexa Important points for Chapter VII Coding exercises for Chapter VII Sample Hospital Discharge Summary for Chapter VII	104
VIII	15	Diseases of the Ear and Mastoid Process Important points for Chapter VIII Coding exercises for Chapter VIII Sample Hospital Discharge Summary for Chapter VIII	108
IX	16	Diseases of the Circulatory System Important points for Chapter IX Coding exercises for Chapter IX Sample Hospital Discharge Summaries for Chapter IX Mortality Coding Exercises for Chapter IX	113
X	17	Diseases of the Respiratory System Important points for Chapter X Coding exercises for Chapter X Sample Hospital Discharge Summaries for Chapter X Mortality Coding Exercises for Chapter X	121
XI	18	Diseases of Digestive System Important points for Chapter XI Coding exercises for Chapter XI Sample Hospital Discharge Summaries for Chapter XI Mortality Coding Exercises for Chapter XI	129
XII	19	Diseases of the Skin and Subcutaneous Tissue Important points for Chapter XII Coding exercises for Chapter XII Sample Hospital Discharge Summaries for Chapter XII Mortality Coding Exercises for Chapter XII	137
XIII	20	Diseases of the Musculoskeletal System & Connective Tissue Important points for Chapter XIII Coding exercises for Chapter XIII Sample Hospital Discharge Summaries for Chapter XIII Mortality Coding Exercises for Chapter XIII	145

XIV	21	Diseases of the Genitourinary System Important points for Chapter XIV Coding exercises for Chapter XIV Sample Hospital Discharge Summaries for Chapter XIV	153
XV	22	Pregnancy, Childbirth and the Puerperium Important points for Chapter XV Coding exercises for Chapter XV Sample Hospital Discharge Summaries for Chapter XV Mortality Coding Exercises for Chapter XV	161
XVI	23	Certain Conditions Originating in the Perinatal Period Important points for Chapter XVI Coding exercises for Chapter XV Sample Hospital Discharge Summaries for Chapter XVI Mortality Coding Exercises for Chapter XVI	169
XVII	24	Congenital Malformations, Deformations and Chromosomal Abnormalities Important points for Chapter XVII Coding exercises for Chapter XVII Sample Hospital Discharge Summaries for Chapter XVII Mortality Coding Exercises for Chapter XVII	177
XVIII	25	Symptoms, Signs and Abnormal Clinical & Laboratory Findings, Not Elsewhere Classified Important points for Chapter XVIII Coding exercises for Chapter XVIII Sample Hospital Discharge Summaries for Chapter XVIII Mortality Coding Exercises for Chapter XVIII	184
XX	26	Injury, Poisoning and Certain Other Consequences of External Causes (Chapter Xix) & External Causes of Morbidity and Mortality The external cause concept Important points for Chapter XIX Important points for Chapter XX Coding exercises for Chapters XIX and XX Sample Hospital Discharge Summaries for Chapter XIX & XX Mortality Coding Exercises for Chapter XIX & Chapter XX	193
XXI	27	Factors Influencing Health Status and Contact With Health Services Important points for Chapter XXI Coding exercises for Chapter XXI	207
	28	Procedure Coding Exercises	211

APPENDIX 1	Human Body Structure and Their Key Functions.....	216
APPENDIX 2	Medical Terminologies.....	239
APPENDIX 3	ICD 10 List of Three Digit Categories.....	244
APPENDIX 4	Special Tabulation Lists for Mortality & Morbidity (ICD-10).....	297
