

## ANNEXURE E

### Consent Form

Each centre was asked to design their own consent form for the subject to be used before conducting the survey. Since this survey requires probing of gingiva, the investigators were suggested to take prior approval from the local ethical committee. The suggested format was as follows.

#### Multi-centric Oral Health Survey

(Organized jointly by Govt. of India, Ministry of Health and Family Welfare and WHO – India)

Dear

In our endeavor to give better Oral Health to the children, the\_\_\_\_\_ (name of institution) is conducting oral health check-up for the population in this area.

This examination of oral cavity will be conducted by the Doctor from \_\_\_\_\_. All International Infection control protocol will be followed during the examination and separate autoclaved instruments will be used for each person.

Kindly give your consent for the oral examination.
