The Project “Options for using Competition Law/Policy tools in dealing with anti-competitive practices in the pharmaceutical sector and health delivery system” was carried out under the overall direction and guidance of Pradeep S Mehta, Secretary General of CUTS International. The Report was prepared by Nitya Nanda, Policy Analyst at CUTS and the Principal Investigator of the Project, with substantial contribution from Joie Chowdhury, Legal Researcher, CUTS who also coordinated the Project. They were provided research assistance by Bindiya Jain and Vikas Batham. Manish Agarwal, Policy Analyst, CUTS provided significant inputs in designing the Project.

The overall coordination of the field survey for the Project was done by Mita Dutta and Dalia Dey of CUTS Calcutta Resource Centre. The city-level coordination of the field survey was done by Vijay Singh of CUTS Delhi Resource Centre in Delhi; Nupur Anchlia of CUTS Mumbai Representative Office and Surendra Kanstiya of Consumer Guidance Society of India (CGSI), Mumbai in Mumbai; and Shobha Iyer of Citizen, consumer and civic Action Group (CAG), Chennai in Chennai. The statistical analysis of survey data was done by Tathagata Lahiri and Debottam Chakraborty of CUTS Calcutta Resource Centre.

The financial support for the Project came from the World Health Organization (WHO) through the Ministry of Health and Family Welfare, Government of India, along with some useful comments and suggestions, particularly from Ujjwal Kumar and Rajendra Mehorotra.

The support received from several individuals, pharmaceutical companies, hospitals, pharmacists, and Non-Governmental Organisations, who kindly spared their time for participating in the survey is also gratefully acknowledged. Thanks are also due to the participants of the National Workshop held on September 8, 2006 at New Delhi which generated useful comments and suggestions.

Though the study benefited from several individuals and institutions, the Report may still contain some errors and omissions, and the principal responsibility for them lies with the Principal Investigator. The views and opinions expressed in the Report may also be attributed to the Principal Investigator rather than to the organizations and other individuals associated with the study or to the WHO or the Government of India.
